Table of contents

1 Requirements

1.1 Student side

1. Must have:
   a. Students should be able to view the jobs they are linked to, displaying the hours they need to fill in.
   b. Students must be able to create an account to access the system.
   c. Students should be able to fill in their worked hours on a day-by-day basis.
   d. Students should be able to confirm their hours at the end of each week.
   e. Students must be able to send their hours to the relevant company for approval at the end of each week.
2. Should have
   a. Students should be able to attach notes to their submitted hours for providing context.
   b. Students should have access to a list of all invoices from the past year.
3. Could have
   a. Students could have the ability to download invoices for offline viewing.
   b. Students should receive a notification or email reminder to submit hours before the end of the week.
   c. Students should be able to view statistics related to their work.

1.2 Company side

1. Must have
   a. Companies should be able to view a list of all students they have hired.
   b. Companies must be able to create an account to access the system.
   c. Companies should be able to approve the hours worked by students at the end of each week.
   d. Companies should have the ability to edit the hourly wage of any student working for them.
   e. Companies should have access to stored invoices with detailed information.
2. Should have
   a. Companies should be able to flag suspicious submissions for further investigation.
   b. Companies should be able to determine the duration for which invoices will be stored.
3. Could have
   a. Companies could have the ability to download invoices for offline viewing.

1.3   Earn It Staff

1. Must have
    a. The Earn It Staff should be able to link students and companies for a role.
    b. The Earn It Staff should be able to remove the link between users and companies.
    c. The Earn It Staff should have an overview of all students and companies on the platform.
    d. The Earn It Staff should be able to accept or reject flagged submissions and resolve any issues.
2. Could have
    a. The Earn It Staff should be able to provide a reasoning for their decisions on flagged submissions.
3. Won't have
    a. The Earn It Staff should have the capability to add users/companies from their original platforms.

1.4   General

1. Must have
    a. Users should be able to log in to the application.
2. Should have
    a. The system should be accessible and user-friendly on different devices

2   User stories

Colors according to role: Must Have, Should Have, Could Have, Won't Have

2.1   **Student side**

As a Student, I want to view the jobs that I am linked to, so I can easily see which hours I need to fill in.

As a Student, I want to create an account so I can use the system.

As a student, I want to fill in the hours that I worked on a day-by-day basis, so I can easily submit the hours that I have worked.

As a student, I want to confirm my hours at the end of the week, so I can double check whether the filled in hours are correct.

As a student, I want to send my hours to the relevant company for approval at the end of the week, so the company can review my filled in hours.

As a student, I want to attach notes to my submission of hours, to provide context to any discrepancies.

As a student, I want to see all invoices from the past year, so I can easily see how much I have worked and earned in the last year.

As a student, I want to download an invoice, so that I can view them without accessing the Earn-It system.

As a student, I want to receive a notification/email when no hours have been submitted just before the end of the week, so that I do not forget to submit my hours.

As a student, I want to see the statistics of the work

2.2   **Company side**

As a company I want to view all students I've hired, so that I have an overview of all the students that work for me.

As a company, I want to create an account so I can use the system.

As a company, I want to approve the hours worked at the end of each week, so that a correct invoice can be generated.

As a company, I want to edit the hourly wage of any student that works for me, so that I can make sure they are getting paid correctly.

As a company, I want to flag any suspicious submissions, so the Earn-It staff can investigate whether that submission is forged or not.

As a company, I want to decide how long invoices will stay stored, so that I can adapt to any regulations easily.

As a company, I want to see the stored invoices, so I can view further details whenever necessary.

As a company, I want to download an invoice, so that I can view them without accessing the Earn-IT system.

2.3   Earn it Staff

As the Earn It Staff, I want to link students and companies for a role, so they do not need to do that themselves for the system to function.

As the Earn It staff, I want to remove the link between the users and the company.

As the Earn It Staff, I want to have an overview of all students and companies on the platform, so I can easily see all the users on the platform.

As the Earn It Staff, I want to accept or reject any flagged submissions, so that any issues raised can be resolved.

As the Earn It Staff, I want to give a reasoning for my decision regarding the flagged submissions, so that the student and the company can look back why this decision was made

As the Earn It staff, I want to be able to add users/companies from their original platform (maybe through some API request)

2.4   General

As a User, I want to log in to the application, so that I can use the web application

As a User, I want to comfortably use the system from different devices.
